Bluewater Energy Solutions Awarded Startup and Commissioning Services by Golden Valley
Electric Association

For Immediate Release

Bluewater Energy Solutions is pleased to announce it has been awarded a contract to perform startup & commissioning services for the restart of GVEA's Healy Unit 2 power plant located in Healy, AK.

Healy Unit 2 is a 50 MW power plant when restarted it will increase GVEA's baseload of coal-fired generation and will provide long-term stability, since coal prices over time have proven to be significantly less volatile than oil or gas prices. The restart is expected to be completed late summer 2018.

About Bluewater Energy Solutions

Bluewater Energy Solutions (BES) is our industry-leading, third-party startup & commissioning and operations & maintenance support service group. BES focuses on turnkey or managed services, which include third party startup & commissioning projects, and has the capability to take a project from construction to commercial operation and beyond. We provide the following specific services to meet your needs:

- Development of the Startup & Commissioning Manual/Plan
- Development of the Startup & Commissioning Schedule
- System Boundary Scoping, System Turnover Packages, and System Readiness Review Checklist
- Commissioning Procedures and Commissioning Test Standards
- Personnel to Perform Startup & Commissioning
- Test Equipment
- Pre-Commissioning Cleaning/Industrial Cleaning
- Operator Training
- Performance, Noise, and Emissions Testing
- High Voltage Electrical Testing
