Bluewater Energy Solutions Awarded Startup and Commissioning Services by Haskell Corporation/Davis Constructors JV

For Immediate Release

Bluewater Energy Solutions is pleased to announce it has been awarded a contract to perform startup & commissioning services for the University of Alaska Fairbanks CHPP project located in Fairbanks, AK.

The UAF combined heat and power plant project will consist of one 240,000 lb/hr circulating fluidized bed boiler, a 17 MW steam turbine and all associated enclosures and auxiliary equipment. The plant will supply heat and power to the Fairbanks campus.

**About Bluewater Energy Solutions**

Bluewater Energy Solutions (BES) is our industry-leading, third-party startup & commissioning and operations & maintenance support service group. BES focuses on turnkey or managed services, which include third party startup & commissioning projects, and has the capability to take a project from construction to commercial operation and beyond.
